# Woodbridge Classic Patio Doors

Woodbridge Classic sliding patio doors are in a class of their own. They operate smoothly and reliably, help lower heating and cooling costs and make homes more comfortable and secure.

Precision engineered and custom built, these rugged vinyl doors will perform problem-free and provide tight, secure closure for decades.

Woodbridge makes sliding patio doors that are as durable as they are beautiful. Our sliding doors, built for decades of reliable performance, glide effortlessly on **zinc-plated, steel tandem rollers** to open onto your patio or deck.

These solid, **highly energy-efficient** products are just the right solution to old doors that leak air and allow water and moisture to penetrate them, which can make your home uncomfortable and result in high energy costs. They are the perfect replacement for doors that have become difficult to operate

Woodbridge doors are **custom made** to your exact size requirements. Select sliding doors in either two-, three-, or four-lite configurations.

Please see the Woodbridge exterior door catalog for information on our hinged patio doors.

All Woodbridge Classic Patio Doors are Energy Star rated.

## Benefits & Features of our Beautiful & Energy Efficient Patio Doors

**Heavy-duty, multi-chambered vinyl frames** - with all corners fused together at high temperatures for extraordinary strength—provide excellent insulation.

**Soft White vinyl** frame features an exceptionally smooth, clean surface that will keep your Woodbridge Patio door looking beautiful for decades.

**Our warm-edge spacer system** reduces energy loss through the glass.

**Steel-reinforced door panels** provide additional strength and durability.

**Solid color-matched handles**—designed to follow the contours of the hand—are elegantly styled and corrosion-resistant to provide years of everyday, problem-free service.

**Exterior key lock set** allows you to use your sliding door as a keyed entry.

**Innovative glazing bead**, uniquely made of two separate materials, helps to keep air and moisture from getting between the glass and frame, which adds years of life to the door.

**Automotive-type glazing** creates a super-tight seal between the glass and frame.

**Polypropylene poly-fin weather stripping** helps make your door airtight.

**Zinc-plated solid steel ball-bearing tandem rollers** ensure quiet, exceptionally smooth gliding action for your door.
